REMARKABLE PERFORMANCE.

Two Hundred Miles Run in a Little Over Eight Hours.

We copy as follows from the special correspondence of the Chicago *Tribune*, dated San Francisco, August 3:

It has long been asserted by competent horsemen that the common Mexican or California horse—or, as he is commonly designated, "Mustang"—is the most enduring animal in the world, and that his speed, if fairly put to the test, would astonish the advocates of "blooded stock," high feeding and fancy training. The English and Americans from the older States, who have been brought up to use the infamous pig skin saddles, double reins, martingales, short stirrups and whips, always stoutly assert, in spite of the evidence of their own eyes, that the Spanish-American riding, with Spanish bit, comparatively heavy saddle, and long stirrup sitting at ease and perfectly erect, with the legs straightened out at full length, as if they were walking, and mounted on under-sized horses of Arabian or Moorish descent, could not accomplish the distance, nor ride with so little fatigue as the Englishman, mounted on his high-bred, bob-tailed bay, with a little bit of pigskin under him, a snaffle bit in his horse's mouth, on which he pulled with both hands, and his main strength all the time forcing his horse's neck out of its natural position, and thereby impeding his respiration, while he himself bobbed up and down like a demented pump-handle, rising and falling with every movement of his horse. A few years since I was talking to an old Californian who mentioned the fact that before the cession of California to the United States, the young men of Los Angelos were compelled to go to Santa Barbara for their lincense to marry. The distance was sixty-five miles by mountain trails and along the seashore, taking the shortest cut they could make, and yet the young *caballeros* made it a point of honor always to ride there and back within the twenty-four hours preceding their marriage, making the entire distance of one hundred and thirty miles, the toughest kind of riding in a hot, dry climate, with a single horse. They would leave Los Angelos after dinner, riding at a gallop all the way, and reaching Santa Barbara before midnight, take a sleep until morning, get the license and ride back in the blazing sun, arriving in season for the nuptials in the afternoon, then dance all night at the grand ball given in honor of the great event. An Englishman who heard this statement remarked instantly, "Haw, well, that's all very well for Hamerica, but an Hinglishman would a done it in 'alf the time!" What more could be said?

Now it is well known that the greatest feat of horsemanship ever accomplished in England was that of Mr. Osbaldiston, who rode 200 miles in 8 hours and 42 minutes, and he was a small man, riding large, powerful horses. No other Englishman has ever equaled this feat.

In May, 1858, Jack Powers rode 150 miles in 6 hours, 43 minutes and 34 seconds, riding California stock; and subsequently Tom McNabb rode 200 miles in 10 hours.

About a month since, a party of horsemen were discussing the question of the comparative merits of imported blooded stock and the common California mustangs, and the different styles of riding, when Edward Whipple offered to bet $2500 against $2000 that no man could be found to ride 300 miles in fifteen consecutive hours. He was at once taken up by Louis Burns and John Cahill, who named N. H. Mowery as the man to ride. The match was all agreed upon on the spot, and since then there has been constant betting going on as to the result. You will see that he must average a mile every three minutes for fifteen consecutive hours, allowing nothing for loss of time in changing horses at every second, third or fourth mile, accidents, or unaccountable delays. The general feeling was that he could never succeed, and in the betting the odds were decidedly against him. Yesterday (Sunday, August 2), was fixed on for this race against time.

The race took place at Bay View Park, a few miles north of the city, over a mile track. The animals, thirty in number, selected by Mr. Mowery, were the common California mustangs and half-breeds, none of them full-sized, but all formed of the indomitable pluck and life which belongs to the descendants of the gallant fleets which were ridden into Spain by the fiery followers of Musa and Taric, when, at the bidding of the Commander of the Faithful, the conquerors of Africa poured into Europe, there to spread the knowledge of the true God and the law of the Koran.

Mr. Mowery is an old Californian, apparently of about the middle age, weighs 160 pounds, and rode with a heavy Mexican-California saddle, Spanish bit and free rein.

At twenty minutes to five in the morning he sprang into the saddle and rode the first horse four times around the track—that is to say, four miles—at a dead run. Attendants stood ready at the stand to saddle and bring out the fresh horses as he beckoned for them in coming round; and he changed animals rapidly, riding none of them three miles after the first, and few of them more than two. The Mexican dodge of "rusteling" was constantly resorted to. An attendant would ride one-fourth or one-third of the way down the track to meet him as he came in wheeling his horse, ride back just behind him, yelling "Vamos! vamos! whoop-ah! vamos!" and swinging his hat as if frantic. This would start the flagging animal into redoubled exertions, and he would come in fairly flying. A single sharp pull on the Spanish bit would stop the animal in a second, and in two or three more the rider would be on a fresh animal and off again. Sometimes the mile or two miles would be ridden one way around the track, sometimes the other, in order to relieve the rider by change as far as practicable.

Early in the morning the race track was crowded with people, and before 2 p.m. the jam was immense. Up to 12 m. the rider refused all assistance in mounting and remounting, but after that his attendants would occasionally give him a lift, apparently not so much because he had required it as for fear that he might do so before the race was over. At the end of two hundred miles a rest was taken, and a placard was displayed from the judges' stand that the two hundred miles had been accomplished in eight hours two minutes and forty-eight seconds—thus beating by forty minutes the time made by Mr. Osbaldiston with race horses, in England. Then the start was made on the third hundred miles, Mr. Mowery having had a bath and otherwise refreshed himself, and appearing good for two hundred more, if required. The bets now changed, and large odds were offered on his winning, with but few takers, and those of the obstinate English bobtail and pig skin school. He now made a mile in 2:08, and the average speed was 2:30 throughout. There was a very heavy wind blowing across the track at this time, and the average speed must have been considerably unfavorably affected by the fact; nevertheless he "kept up his lick" amid the cheering of the crowd, never flagging for an instant. A halt was made for a second bath, and from time to time an attendant would dash a little water over Mowery's head as he rode along. At one time a friend who was at the stand ran forward and offered his own horse for a ride over the track. Mowery was on him in an instant, and rode, not only once, but three times around. As he came around the second time, the owner made a fruitless attempt to catch him, and only succeeded in catching a fall, as the rider, sitting erect as a bronze statue dashed past. The crowd yelled with delight at this, and as Mowery came around the third time, shouted to him to "go it again," but that would have been carrying the joke too far, and he changed horses, while the officious friend led his own away, amid the jeers and cheers of the spectators.

At 11 minutes to 7 p.m., just fourteen hours and nine minutes from the start, the three hundredth mile was accomplished, and a perfect roar of applause broke from the multitude as the underrated horseman started once more "just for luck." The last mile was made in two minutes and nine seconds, making the unprecedented distance of 301 miles in fourteen hours, eleven minutes and nine seconds, and beating anything previously accomplished in the world in this line. The judges declared the money won and announced the time. The gates were immediately flung open and the vast concourse, in carriages of every description, on horseback and on foot, poured out into the road towards San Francisco, an indiscriminate race on "the devil take the hindmost" plan being inaugurated. As the crowd steamed away towards the city, the most conspicuous object in it was an Englishman on a tall, raw-boned bay, with a stump of a tail sticking up like an abbreviated flag-staff behind, riding on a pig skin, with short stirrups, top boots, plug hat, an eye glass and a cane. His appearance was so indescribably ludicrous by contrast with what had just been seen, that yells and roars of laughter greeted him at every jump for miles. So ended the great California mustang race against time.

BY TELEGRAPH.

Noon Dispatches.

NEW YORK, August 21.—By mail advices from Hayti we have confirmatory details of dispatches through the Cuba cable. Cape Haytien was surrounded by the revolutionists, and communication with the interior was cut off.

The insurgents probably intended to blockade Port au Prince with the captured corvette Sylvia. The town is already closed in on the land side.

John Lynch had taken supreme command of the revolutionary forces.

Minister Hollister, in his cruise along the coast on the United States steamer Penobscot, had been received with unusual honors by Salnave's representatives. His conduct is much condemned.

John Kennedy was executed at Canton, N. Y., yesterday, for the murder of Thos. Hand, in February, 1867. He met his death with apparent indifference. He was condemned to be hung in November last, but on the morning of that day a stay of proceedings was served upon the Sheriff, and he was further respited.

Hand, who was murdered, lived for many years in dread of a violent death, and admitted no one even to an acquaintanceship except Kennedy. He had a considerable sum of money in his possession, but lived in a miserly manner in order to avoid giving any one an inducement to murder him.

LOUISVILLE, August 21.—The *Courier's* New York special says Mr. Greeley has published an article in the *Independent* stating that there is danger of Grant's defeat unless the Republicans do better than they have done. He also states that unless Ohio works harder for the Republican ticket, she will give ten thousand majority for the Democrats. The Republicans must carry two of these States: Connecticut, New Jersey, Pennsylvania, New York—or lose the election.

LOUISVILLE, August 21.—The *Journal's* Washington special says the President still has Tennessee under advisement. He expresses his surprise that no journal has found out that the Constitution of the United States declares that no State, without the consent of Congress, shall keep troops or ships of war in time of peace. He clearly thinks the Tennessee Legislature has no right to call out the militia.

There is no doubt that Andrew Johnson is for Seymour and Blair. McCulloch is, also, for that ticket. He is disregarding the recommendations of Rollins, and, up to this time, has appointed none but Conservatives under the late revenue law.

The Secretary of the Treasury, Mr. McCulloch, and the, Commissioner of Internal Revenue, Mr. Rollins, are just now in a terrible muddle about the Supervisors. It is hard to say who is the best sticker of the two, Rollins or McCulloch.

The President will either appoint Hon. Harvey M. Watterson, John M. Lea or Dorsey H. Thomas Collector of Customs at New Orleans. All these gentlemen are from Tennessee.

MONTGOMERY, August 20.—The Democracy held a large meeting to-night, ratifying the nomination of Seymour and Blair. About ten thousand people assembled, amid firing of cannon, bearing transparencies and banners. The whole city was illuminated. Ex-Governor Watts, Alex. White and J. T. Morgan, and several colored men made addresses.

COLUMBIA, S. C., August 20.—The bill authorizing the Governor to take possession of the assets of the Banks of the State, to the exclusion of foreign bondholders, passed the Senate to-day. The value of the assets is nearly half a million dollars.

Mr. Randolph introduced a bill authorizing the Governor to take possession of the arms, batteries and equipments belonging to the State.

The bill organizing the State police into semi-military organizations passed both Houses.

CAIRO, August 20.—Passed up—steamer Forsyth, at four a.m.; Tacony, Tennessee river, at three p.m. Passed down—steamer Alton, at four p.m. The river has fallen six inches.

ST. LOUIS, August 20.—Arrived—Belle Memphis and Bismarck. River falling; six feet four inches to Cairo, and four feet to Keokuk.

BALTIMORE, August 20.—The fight between Sam. Collier and Wm. Edwards will take place at some point in Virginia, on Monday next. Edwards was arrested to-day and gave bail in the sum of $2500 not to fight within the State of Maryland. Collier, on hearing the police were after him, gave bail in a similar amount. Roughs and shoulder-hitters from other cities are congregating in this city.

AUGUSTA, ARK., August 20.—The Republican Convention for the First Congressional District, last night, renominated Hon. Logan H. Roots for the youngest member of the Fortieth Congress. Joseph Brooks, the lately defeated aspirant for the United States Senate, was his principal competitor. The session of the Convention was unusually protracted, somewhat exciting, and creating much interest throughout the entire State. The nomination, however, was unanimous after the first ballot.

—James Follingsberg, while in prison at Farmington, Utah, charged with rape, upon the daughter of Wm. Bromley, was shot by the latter through the window, the ball passing through his head. Bromley then surrendered himself to the authorities.

—Little Susie, looking at some pictures of winged angels, exclaimed, "Mamma, I don't want to be an angel." "Why not, my dear?" "Humph, leave off all my pretty clothes and wear fedder, like a hen!"

LATE NEWS.

—Owing to the delay in getting appointments made and instructions issued under the new tax law, the business of distilling whisky, it is reported, is nearly stopped.

—The Treasury Department now estimate that three and a half million of the seven-thirties are still outstanding, and that of these enough will never be presented for redemption to more than cover the entire expense of their issue.

—Reports from Calcutta to the 23d of July have been received. They state that crops in the Northwestern District of India have suffered from heavy rains, and the yield in that part of the country will fall below the estimates of planters.

—Immense tracts of peat and marshy lands are on fire in various parts of Russia, and fears are entertained for the safety of St. Petersburg, as it is built on a deposit of old peat.

—About one hundred houses up town in New York, vacated by families who were at the sea side, have been entered during the past week and robbed of everything valuable that could be carried off.

—It has been officially decided that the cattle disease is deadly. That it is the result of hard driving for long distances; that it is not contagious, and that it is rapidly decreasing at the East.

—The Republicans of the Eighth District of Missouri have nominated John F. Benjamin for re-election to Congress.

—Capt. Dennis was found in the Chowan river, Virginia, last Thursday, with his throat cut and his vessel in a neighboring creek. He had been robbed of $1,000 and murdered.

—The will of Thaddeus Stevens has been admitted to probate. The bulk of his property goes to his nephew, Major Thaddeus Stevens, of the regular army, provided he abstains from the use of intoxicating liquors. His total worth in money, bonds and real estate foot up about $60,000, of which $10,000 goes to charitable and educational institutions in Pennsylvania, and $500 to adorn and keep in good condition the graves of his mother and brother, at Danville Centre, Vermont.

—The Union Pacific Railroad is now completed to within ninety miles of Green river. It is reported that considerable difficulty exists at Green River City between the settlers and the agent of the Union Pacific Railroad, the former claiming the right to the land by occupancy.

—A ladies' shooting match came off at Amelia Springs, Virginia, the other day. The prize for the best shot was an iced cake; for the worst, a doll baby. A dozen or so entries were made.

—Saratoga should be a pious village. The town is running over with ministers. There are twenty-seven at one hotel. They are designated as the pious brigade. As a rule, their bills are paid by wealthy parishioners.

—Italy pensions the widows and orphans of doctors who have died in attending choleratic patients.

—The ladies of London are guilty of queer vagaries, if we may believe a correspondent, who says he saw a lady in Rotten Row, the other day, with a mound of hair on her head full two feet high, and not a hair of it natural. He says the ladies generally are dressing their heads in that way.

—In answer to incredulous persons, who contend that lager beer is not nutritious, Prof. Liebig has demonstrated, by a series of experiments, that 1460 quarts of Bavarian nectar contain exactly the same amount of nutriment as a two and a half pound loaf of bread. People who drink lager for its strengthening properties, therefore, should not be discouraged. Every nine casks they swallow will be at least equal to a ten cent loaf.

—It is said that if all the Menken's husbands should go into mourning the price of crape would rise.

—A swimming match across the Hudson river at Poughkeepsie, on Tuesday—three-quarters of a mile—was won by J. P. Hindman, of Kansas, a student at Eastman College, in twenty-five minutes.

—Mrs. August Belmont drives a lovely pair of cream-colored ponies in a low basket phaeton; value of ponies $5000. Her husband's four-in-hand light bays, sixteen hands high, are said to be the finest team at Newport.

—Isaac R. Hawkins has been re-nominated for Congress by the Radicals of the Seventh Tennessee District.

—On Saturday evening last two men went out turkey hunting, in Sullivan county, Ind., near Shelbourne, neither knowing the other was out. One commenced calling for turkeys, and the other hearing him, and supposing that it was a real turkey, also commenced calling. It being in the dusk of the evening, he saw something through the brush which he supposed was a turkey. He took fair aim and fired. Upon approaching the spot he discovered that he had shot Daniel Bush fair through the head, killing him instantly. A Coroner's inquest was held, and a verdict was returned, "Killed for a turkey."

—The sale of pews in the new Jewish Temple at Louisville took place a few days since. The bidding was very spirited and the first choice of seats was sold to Mr. N. Bloom for $2500. The next in order was to S. Ullman for $2350. The whole sale will amount to over $135,000, and will go largely towards paying the heavy indebtedness incurred in the erection of this splendid temple.

—Hon. Wm. E. Ashley died at Little Rock on Sunday, the 16th.

—The weather for the past two weeks has not been favorable to cotton; too much rain. Corn is very fine, and the farmers will make plenty of bread for home consumption and some to sell. The cotton crop will be cut short, if the wet weather continues during the month. —*Carendon Democrat.*

—For two or three weeks we have had almost continuous rains. We fear the cotton crop will be injured, but the corn prospects are unequalled, and Phillips county will have thousands of bushels to ship.—*Helena Clarion, 20th.*

—The Fort Smith *Herald* of the 15th says: "The crops, corn and cotton, all along the route from Pine Bluff to this place, present a fine appearance, and the farmer and the planter are feeling good over the prospects of a heavy yield, good demand and fair prices."

—Travel through Ft. Smith, *en route* to and from Texas, is still great; no day passes but some emigrant wagons are in sight; some folks can travel cheaper than they can stay at home.

ALABAMA.

Letter from Huntsville.

HUNTSVILLE, ALA., August 18, 1868.

Editors Memphis Appeal:

Arriving here late last night with that jovial and entertaining fellow-traveler, Col. Jno. P. Pryor, of LaGrange, we were most politely received, and fared most sumptuously at the Donegan Hotel, kept by those very accommodating gentlemen, Messrs. Holden & King.

Arising very early this morning I beheld for the first time "the great King of Day" burst in golden splendor upon the verdant hills and mossy vales of the great State of Alabama; and viewing from a distance these lofty cliffs that lift their mossy peaks almost to the grandeur of mountains, covered with majestic trees, and clothed with a carpeting of the richest verdure, we look upon this lovely city lying at its base, situated upon a beautiful level, with emotions of the sublime.

The streets are macadamized, laid off in good taste, and are kept clean and neat. In the center of town stands the Courthouse, a magnificent edifice, and near it is a most wonderful and valuable spring, which supplies nearly the whole city with splendid water, conveyed through pipes. The houses generally are well and permanently built; the citizens courteous and social. I have just had the pleasure of meeting with Mr. Dew, associate editor of the *Independent*, who informs me that the crops of this region are very flattering, and Democratic interests flourishing. The people are in good spirits, and are marching onward to that glorious future which shall culminate in the election of Seymour and Blair, with the dawning of the best, brightest and happiest days this sunny Southern land ever witnessed.

In traveling through North Alabama I was struck with the beauty of the country, the splendid farms lying so very level, and the fine residences and everything so tastily arranged and the crops so clean and the farming in such workmanlike order. And while I do not agree with the many who advise the exclusive cultivation of grain, leaving out the raising of cotton only so far as is necessary for home consumption, yet I am fully impressed with the opinion that in view of the many disadvantages for raising cotton at present, and the many arguments against cultivating it in the South under the present existing circumstances, and more especially in view of the fact that North Alabama is not adapted to the growth of cotton, she ought to turn these fertile fields and beautiful lands into the cultivation of breadstuffs. But let old Mississippi still raise her cotton! Her people have been raised and educated to it. Her climate and soil, her geographical position and her everything are so peculiarly adapted to the growth of that staple, that it can be raised better and cheaper there than anything else. And we do not hesitate to say that cotton *will be* raised there. If Southerners cannot or do not raise it with negroes, they or somebody else, with some other labor, will raise it. For cotton must be raised, and nowhere else are there so many favorable circumstances and great advantages so happily combined for raising cotton. And it will be raised. A system of labor must of necessity be organized. The relative prices of things will be made to correspond, and circumstances will adapt themselves to each other so that it will be profitable to raise cotton there.

What has been said of raising cotton in Mississippi may almost equally apply to many other portions of the Southern States, and to those portions we would say, first, raise enough grain and breadstuffs for home consumption, and then exert all your energies and industry in raising cotton. Times will change. We have been going through a long and terrible ordeal. The great crisis is not yet passed. It is hastening away. Financial and agricultural affairs will not be always as they now are, and there is already a tremendous revolution of political affairs going on. The results of these mighty upheavals will totally, thoroughly, radically and effectually change the whole aspect of affairs here. And already do we hear the clarion-ring of Democratic freedom through hill and dale, even from New England's rock-bound coast to the sun-scorched plains of Texas. We have but to be firm, and to be vigilant. "Eternal vigilance is the price of liberty." Let us think calmly and act promptly, and beyond the great waters, dyed with blood and surging with commotion, there's a peaceful silver stream that will bear our bark to a bright and glorious haven.

OCTAVIUS.

Political Phases in the South—The Negro Element.

Our newly erected fellow-citizens of African descent appear to be turning the tables nicely on the Radicals and Radical carpet-baggers. At Raleigh, N. C., for example, a special train of cars from the southeastern part of the State brought up to the State Democratic Convention a club of Democratic negroes in company with a number of delegates. We hear of similar movements throughout all the South of the colored people flocking to the Democratic standard, and should not be surprised to see a general stampede from the Radicals and to the Democrats in the Presidential and Congressional elections. All the signs of the times point to such a result. It is just what we have anticipated and predicted. The negroes begin to see that the Radicals have cheated them. Instead of getting the lands and property of the whites by a wholesale system of confiscation and transfer to themselves, as promised, the negroes find the Radical Northern adventurers and carpet-baggers are only after their labor and votes. These Radicals have shown the cloven foot, have shown they care nothing about the negroes, and that all they want is to use the poor Africans to make money and get the offices. What more natural, then, than that these negroes should turn to their old masters and listen to the friendly voice of those among whom they were born and with whom their future interests and welfare are identical?

The growing and general defection of the negroes from the Radicals is creating a division and a great deal of excitement among that people. At first, as we said, they were nearly all going with the Radicals; now colored Democratic clubs and organizations are springing up all around. Of course, those who still adhere to the Radicals are very bitter and hostile. At Raleigh, they made riotous demonstrations for the purpose of mobbing the negro Democratic club; but their object was defeated by the temperate and moderate conduct of the white people and through Governor Holden calling out the military. Amid all this excitement and riotous conduct of the Radical negroes, the greatest enthusiasm in favor of the Convention and the Democrats prevailed. To show the wisdom and moderation of the Democrats, both white and black (who, of course, were in a large majority there at the time), we notice that when a Radical senator and carpet-bagger, named Estes, tore down a lithograph picture of Seymour and Blair, which was posted in the Yarborough House, nobody chastised him for his conduct, though many Democrats witnessed it. This shows the Democrats to be as moderate as they are earnest. They are bent on carrying the election, and will not be provoked to violence by the outrages of the Radicals. They are determined not to give the Radical press a chance of howling at them and calling them incurable rebels. We call the attention of the Radical organs to this admirable and forbearing conduct of the Southern white people, in contrast with that of the Radical carpet-baggers and their deluded tools among the poor negroes. This is one of the recent phases of the political revolution that is going on in the South. From all appearances the reaction that has set in will sweep over the Southern States, and the Radicals will find themselves next November left out in the cold.—*N. Y. Herald, 15th.*

FOREIGN.

LONDON, August 21.—Dispatches have been received to-day giving the particulars of a heartrending calamity in North Wales yesterday evening, whereby twenty-five persons lost their lives. A train from Holy Head, containing passengers and mails from Ireland, which was proceeding toward Liverpool, at the usual rate of speed, met with a sad accident at the little town of Aberglee, in the county of Denbigh. A long train of petroleum trucks had just been switched off on the siding, to make way for the Irish mail, but the switchman had neglected to replace the switch, and a dreadful collision was the consequence. Seven passengers were killed outright and many others badly injured. The cars of both trains were reduced to a shapeless mass. The concussion produced by the collision caused the petroleum to explode, which instantly enveloped both of the trains in flames, and before the fire could be subdued eighteen persons had been literally burned alive to ashes.

Pratt's Southern Made Cotton Gin

THIS GIN is regarded by planters who have used it, as the best for sample, picking the seed clean, and light draught. Planters cultivating bottom lands are requested to examine the Eureka Gin at Farrington & Howell's, 268 Front street. It will pay for itself in ginning fifty bales. A. N. Gunnison, manufacturer of the Steel Comb Gin before the war but now a planter, gives the following certificate:

"MEMPHIS, TENN., January 31, 1868.

"I take pleasure in recommending to planters cultivating Cotton on bottom lands of the Mississippi, Arkansas, White and St. Francis rivers, the Eureka Gin, made by Daniel Pratt, of Alabama. This Gin separates the hulls, bolls, etc., from the Seed Cotton, makes a good sample, and is superior to any other Gin for bottom lands. I have used one myself on a farm in Washington county, Miss., and it operates well and gives entire satisfaction in every respect. A. N. GUNNISON."

Orders for Gins, from 40 to 80 Saws, and Gum Belting, at Factory Prices, addressed to the care of FARRINGTON & HOWELL, 268 Front street, Memphis, promptly filled. Presses and Gearing put up, and Gins repaired by a skilful Gin wright.

GENERAL GIDEON J. PILLOW is in New York.

MOSE R. PARRISH, Esq., of the Bolivar *Bulletin*, is in town.

A COLORED Democratic club was organized in the Ninth Ward on Thursday night.

MAJOR W. H. RHEA, agent of the Paschall House Association, is in town on a flying visit from Louisville.

ANNIVERSARY.—Yesterday was the anniversary of the famous raid of Gen. Forrest into Memphis, in 1864.

THE Reds are to have a rally at Mason's Depot to-day. Buzzard Lewis, Gen. Smif and others are to be there and talk.

THE Huppertown Democratic Club had a lively meeting on Thursday night, ex-Attorney General Wallace and others speaking.

CENTRAL DEMOCRATIC CLUB.—The Central Democratic Club of Shelby county meets to-night at their headquarters in the Stillman Hall.

ANOTHER meeting of those opposed to the present mode of paying for the Nicholson pavement is to be held at Ferguson's Hall, on Beal street, Monday evening.

REV. THOMAS WARD WHITE, of Helena, Ark., will preach in the First Presbyterian Church, corner of Poplar and Third streets, on to-morrow (Sabbath), 23d inst., at half-past ten o'clock a.m.

PEACE WARRANTS.—A large number of peace warrants were issued yesterday by the magistrates against quarrelsome and threatening persons, who will be required to give bond for their behavior or go to jail.

NEW COTTON.—Seven new bales of cotton from Tipton county, Tenn., was received by traders to-day, who are informed that a larger quantity will be sent them next week. For sale at 324 Front street.

SOME WATERMELON.—John Walker, who holds forth at the corner of Main and Madison streets, sold a melon that weighed over sixty-three pounds yesterday. It was the big brother of a large family of melons.

POLICE COURT.—Seven offenders appeared at the Northern Police Court yesterday, fifty-five dollars being assessed for fines. Moses Bond and R. W. Mosby, gentlemen of color, were held for trial before a magistrate, on account of a little stealage operation.

STEALING A POCKETBOOK.—A negro named John Bentley has been committed for trial, after an examination before Justice Griffith, for stealing a pocketbook and contents from J. M. Moorehead, while the latter was selling watermelons from his wagon.

THE Central Methodist Church, on Union street, is being fitted up for school purposes, and will be opened as the Central High School next month. A fine church edifice is to be built on the lot in front of the school building, the latter being used by the congregation until the completion of the new church.

EMMONS & SON, No. 10 Jefferson street, and 393 Main street, have received the Leslie Ladies' Magazine, for September; Lippincott Magazine, for September; Catholic World, for September; Eclectic Magazine, for September; Beadle's Dime Novel, No. 157, The Indian Avenger; Little's Living Age, All Year Round, Freeman's Journal, Irish American, Irish People, Irish Citizen, Cincinnati Zeitung, Artisan, and all the Dailies.

A DRESS CASE.—There was an interesting suit in regard to a dress valued at five dollars, before Justice Black yesterday. Sallie Myers replevied a dress and had it taken off the back of Mollie Ryan. Lawyers were engaged, a large number of witnesses from the fast walks of society summoned, and the case fully argued before the 'Squire, who decided that Mollie should have the dress and Sallie pay the costs. The expenses of each party amount to several times the value of the property contested—a result often accomplished in law suits.

NOTICE.—A report having by some means obtained circulation, that we would in the future discontinue the sale of cotton on commission, we take this method of pronouncing such report as utterly unfounded, and we fear of malicious origin. Thankful for the very liberal patronage heretofore received from the public, we hope still to merit a continuance of their confidence and patronage. We take pleasure in announcing that we will continue the cotton factorage, grocery and commission business, as heretofore, and will at all times be pleased to see and serve our friends. We are now receiving a large and carefully selected stock of goods, purchased by our Mr. Meacham in the Eastern markets, which we will sell at the lowest market prices. Our Mr. Treadwell will give his entire time and attention to the sale of cotton, and flatters himself that he will be able to give satisfaction to all who may favor us with their patronage. We are, for the present, at No. 13 Union street, but will be in our new and commodious store, at our old stand, No. 9 Union street, by the 10th of September.

1w MEACHAM & TREADWELL.

THE CONCERT AT SPRINGDALE.—There was a fair attendance at the concert given by the young ladies at the above place last night. Everything passed off pleasantly, and the church will, no doubt, receive a very fair addition to its coffers—sadly needed, in order to make it complete. Our reporter who went out did not return until such a late hour, that we are compelled to omit much we would like to say on this subject.

SUPPOSED MURDER.

A Reward of $500 Offered by Superintendent Beaumont.

Many of our readers will remember the circumstances of the death of Dr. J. J. Hooks, who was found dead in his room in the Stillman Block, about two months since. The Coroner's jury returned a verdict that death was caused by heart disease or apoplexy, in which they were sustained by several medical gentlemen. From information received by Col. Beaumont, Chief of Police, it is thought that the deceased gentleman was foully dealt with, most probably poisoned. A detective has been attending to the business for several days, but has developed nothing warranting the arrest of any person. Col. Beaumont, however, has issued a circular stating that facts recently developed leave little doubt that Dr. Hooks was foully murdered, and offering five hundred dollars reward for the detection and conviction of the murderer. Certain persons who bought property belonging to the Doctor at a United States tax sale are suspected of poisoning him for the purpose of stopping legal proceedings that were about to culminate in the restoration of his property. At the time the body of the Doctor was discovered, he was lying on the bed, with his eyes closed and his hands folded, as if some person had laid him out, while a peculiar odor filled the room, the only mark of violence being a bruise just above the right eye. It is thought that the Doctor was overpowered in his office, and while insensible sulphuric acid was administered to him, causing death. The decomposition of the body at the present time renders a *post mortem* examination impracticable, but the police have a clue that may yet result in the detection and conviction of the parties engaged in the diabolical work.

THE CAMPAIGN.

Presentation of a Flag to the Central Colored Democratic Club.

There was a large audience at Stillman Hall last evening, it having been announced that a beautiful banner would be presented to the Central Colored Democratic Club. The meeting was called to order by the venerable President, Reuben Alexander, when Col. John Donovan, who was to make the presentation speech in behalf of the Central Democratic Club of Shelby county, was introduced. Col. Donovan addressed himself particularly to the members of the Colored Democratic Club, and pointed out to them in forcible language the difference between the carpet-baggers and their old masters; the former were their friends only for what they could make out of them, and whenever they could not get an office they would pack their carpet-bags and depart for their Northern homes, leaving the negro to look after himself. The Southern man, however, was their true friend, for he and they were born here and expected to live and die here. He told them to take that banner, and carry it aloft, and work for it until victory would perch upon it in November, by the election of Seymour and Blair. Col. Donovan's remarks were well received, and when he unfurled the banner and presented it to the President, the members of the Club stood up, and their enthusiasm was displayed by hearty cheers that would have made any carpet-bagger shake in his boots to hear. The President called on Col. Foute to respond in behalf of the Club, which that gentleman did in his usual happy style. He was followed by ex-Attorney General Wallace, who spoke words of wisdom that carried conviction to his hearers and caused them to applaud in a manner that showed that his effort was appreciated. Several other gentlemen also spoke during the evening.

THE COURTS.

CRIMINAL COURT—*Wm. Hunter, Judge.*—Yesterday the case of the State vs. Thomas Nevile, indictment for horse stealing, on writ of habeas corpus, was called up for hearing, but not concluded on account of absent witnesses. In all cases coming under the acts of May 17, 1865, masking arson, burglary, robbery, house-breaking, horse-stealing, etc., capital offenses, except in aggravated cases, the Judge has fixed the bond at $2000, undivided penalty, thereby avoiding all the formalities of an investigation under writ of habeas corpus.

To-day will be motion day. Motions will be heard for new trials in the following cases:

The State vs. Margaret Walker.
The State vs. M. Horrigan.
The State vs. John Grean.
The State vs. Joe King.
The State vs. Henry Fields.

Sam Moody, the negro recently convicted of the murder of Captain Perry, will be brought out and sentenced.

MUNICIPAL COURT—*Geo. W. Waldran, Judge.*—In the case of the State vs. Burditt, argued on yesterday, on the pleas and demurrer filed, Junge Waldran sustained the demurrer of the Attorney General to the pleas of the defendant. Five jurors were elected last evening; the remaining seven will be obtained to-day. To-day at 9 o'clock a.m., the above case will be called up for trial. Should this case be concluded in time, the next case for trial will be the State vs. Beaumont.

UNITED STATES COURT—*A. S. Mitchell, Clerk.*—The petition in bankruptcy of Lawson M. Wood, McNairy county, was filed on yesterday. This is the first petition filed under the act of Congress extending the time for filing in bankruptcy.

FINANCIAL AND COMMERCIAL

OFFICE OF THE DAILY APPEAL,
MEMPHIS, August 21, 1868.

We recorded yesterday the arrival of the second bale of cotton of the new crop, by Messrs. A. J. Roach & Co. This bale was sold to-day to Mr. Brunson Bayless, of Front street, who shipped it direct to his house in England. This bale was by far the finest one yet received, being clean and evidently ginned with care. It sold for 40c. To-day we have to record the receipt of another new bale per steamer Mollie Able. It comes from the plantation of Mr. J. H. Estell, of Greenville, Miss., and was consigned to Moon & Geoghegan, who sold it to J. C. Hornsby & Co., at 42½c. These gentlemen shipped it to Philadelphia via the Baltimore and Ohio Railroad—the agents of the road charging no freight. It will be the first bale of the new crop to arrive in that city. We hope to announce an increase of cotton receipts henceforth, and with favorable weather it will be but a very short time until we are once more reveling in the snowy staple. 'Twill be only a week or two now before the faces of cotton buyers, as well as some new ones, will be found upon our *pave*. Rusty implements for diving into the entrails of fat bales will be burnished up. Stencils will be put in order, and the grum and don't-ask-me-a-question sort of look borne by those of our cotton men who staid at home will be giving way to a more pleasant expression.

Even our bankers who are proverbially polite, and have answered our pertinent and impertinent questions daily through the past months of dullness with much good grace, are beginning to feel that the good time is coming when exchange will flow in and out by the hundreds of thousands, and money be plentiful as of yore.

At present the demand for exchange is light—not more than equal to the supply. Rates are firm. Buying at par to ¼ premium and selling at ¼ to ⅜ premium.

Gold opened in New York at 143¾ and closed at 144¼.

In this market 142 was the outside inquiry rates; selling at 143@144, but the outside demand is very small.

The New York stock exchange quotations at noon to-day were as follows: Five-twenties, coupons of '81, 13½; do '62, 13½; do '64, 8½; do '65, 11; do new issue, 7½; do '67, 7½; 10-40s, coupons, 8½. Old Tennessee bonds, 64½; New Tennessee bonds, 63½; Government bonds firm.

Outside a sale of $5,000 city bonds at 50 cents, we could learn of no activity in our stock market. City bonds are not offered as liberally as some days ago, and holders are mostly asking 51 cents. There is the same firmness reported in the Memphis and Charleston Rail Road stock with holders willing enough to sell at 55 cents, and buyers offering 52 to 53 cents. A large order is held by one of our banking houses for Memphis and Ohio stock at 9 cents, but there is only little offering.

City scrip is quiet; 70 cents is offered by brokers, and is generally accepted. Selling at 75 cents.

County warrants are in some demand at 50@52 cents by dealers. Selling at 55 cents. A large amount could be bought at 54 cents if not 53 cents.

Police scrip is firm. Buying at 75@76 cents. Selling at 80 cents.

We are glad to learn that Col. Joseph G. Crane, U. S. Commissary of Subsistence for purchasing and disbursing Commissary stores for the whole Western district, comprising the Indian Nation, Arkansas, Mississippi and Tennessee, has determined to establish his headquarters in this city. This will bring a large amount of capital to our city, and no doubt many men will be required, whose families will live in our midst. Col. Crane is an old army officer, and is spoken of by those who know him intimately as an elegant gentleman. We welcome him to Memphis.

Cotton was firm in Liverpool at the opening to-day. Uplands 10½d., New Orleans 10¾d. It was advancing at noon and buoyant with sales of 20,000 bales uplands 10¾d, Orleans 11d. Week's sales 140,000 bales, of which 23,000 were taken for export and 13,000 by speculators. Stock on hand 570,000. Of this amount 215,000 is American. Stock afloat 723,000 bales, of which 6000 is American. In New York cotton opened dull and nominal, and at noon it was steady, uplands 29½@29¾ cents, and closed firm, low middlings 27 cents, middlings 29½@30 cents. Orleans 30½, Good middlings 32½. Sales 600 bales.

Except the excitement attending the reception and sale of the new cotton mentioned above we have nothing of interest to note of our market.

MISCELLANEOUS.

Business was better on the levee yesterday. Several boats arrived and departed—all with fair trips.

We have received the following well merited card of thanks from an eminent Divine of this city, relative to ministerial courtesies on steamboats:

MEMPHIS, August 21st.—*Editors Appeal:*—We have just made a hurried run, for a short distance, on the Liberty No. 2, and feel that it is due her gentlemanly clerk that we give expression to our high appreciation of the marked courtesy, kindness and attention with which we were treated. Ministers, above all men, appreciate these little things, and they ought not to go unrewarded by the public. T. W. W.

A well-known river man of this city, who has not been afloat for some months, thought he would make a little speck by shipping fruit. His first and last venture was 150 boxes of pears, which were seven or eight days reaching Chicago over the Illinois Central. On arrival, the consignee didn't recognize it as fruit, and wrote back to know if it was Switzer cheese or guano. The handsome first clerk didn't make any reply, but is still able to pay a pear to the bushel of his liabilities.

Our friend, T. J. Howard, Esq., recently clerk of the Magenta, arrived in town yesterday on his way to New Orleans. He enters the Red River trade this season as clerk and part owner of the Enterprise. While we regret to part with Tom from our waters, we wish him boundless success in old Red.

Capt. Rufus Walt has returned home from a visit to Cincinnati in fine health, and will be followed by a big stock of supplies.

From Capt. Tom Day, who recently visited the St. Francis river region, we learn that crops are excellent and the people jubilant.

The Liberty left yesterday for Cairo, where she will go on the docks.

For some months past the Memphis and St. Louis Packet Company have been meditating a change to the restaurant system on their line of boats. An innovation upon old customs is a much more serious thing than people imagine, and the Company have been slow to decide. They have been keeping a very close watch upon the matter since last season, and found that though the table was no source of profit to the line, that there was no positive loss—ends just about met. On last Saturday, however, Messrs. Benj. Babb, Dwight Clark, J. M. Provine, T. S. Ely and Larry Harmstad, of this city, got on board the City of Alton, bound for St. Louis. The first meal eaten by these gentlemen attracted the attention of the officers, and long before the boat arrived at St. Louis, the great question was decided. Upon a representation of the facts to Captain Smith, the President, an order was immediately issued, and the result is that the restaurant system is adopted, and every one required to pay for what he eats.

The Julia, Capt. Lockhart, will pass down to-day at noon for Vicksburg. Capt. J. Lee Finney is chief clerk of the Julia, and is a popular officer on the line.

We are rejoiced to learn that our old friend and fellow-citizen, Capt. Jno. T. Shirley, who went to California some months ago, has returned and is now in Louisville. We hope to see his genial face upon our streets ere many days roll around.

The elegant and spacious U. S. mail packet Mayflower, Capt. Wm. Ashford, with Charley Smither in the office, starts to day on her first trip to White river. She will go through to Jacksonport. The people along that river will see one of the finest steamers which ever floated on the bosom of old White, and will have the satisfaction of knowing that she comes to them to st

OFFICE OF THE BOARD OF LEVEE COMMISSIONERS FOR THE COUNTIES OF BOLIVAR, WASHINGTON AND ISSAQUENA,

GREENVILLE, MISS., August 5, 1868.

SEALED PROPOSALS will be received until Saturday, the 29th day of August, for the construction of the following Levees.

IN BOLIVAR COUNTY.

Kirk's Levee, about 40,000 cubic yards.
Pride's Point Levee, about 40,000 cubic yards.
From Vicks to Vermillion, about 180,000 cubic yards.
Lake Bolivar Levee, 180,000 cubic yards.

WASHINGTON COUNTY.

Levee from Tarpley's to Mrs. Campbell's, about 150,000 cubic yards
Greenville Levee, about 120,000 cubic yards.
Kershaw's Levee, about 20,000 cubic yards.

ISSAQUENA COUNTY.

Camack's Levee, about 350,000 cubic yards.
Christmas Levee, about 150,000 cubic yards.

Separate proposals may be made for each of these Levees, or for the whole number in the District. Propositions must state the price per cubic yard for which the work will be constructed.

For the information of capitalists, I would state that the whole amount of indebtedness of the Board is about $150,000, and that the tax on the present cotton crop will more than discharge every form of obligation.

Any information in regard to the Levees, or matters pertaining to their construction, can be obtained by application at the office.

POPULAR WORKS ON FREEMASONRY

PUBLISHED BY THE

MASONIC PUBLISHING

—AND—

MANUFACTURING COMPANY

432 Broome Street, New York.

LITURGY OF THE ANCIENT AND ACCEPTED Scottish Rite of Freemasonry, for the Southern Jurisdiction of the United States. By Albert Pike, 33d., Sov. Grand Commander. 8vo. Splendidly illustrated with Chromo-lithographic plates and numerous wood engravings, Part II, 4th to 14th degree, $5 00.

As it would perhaps seem unnecessary after giving the above title-page to say anything further in the way of recommendation. The name of the author should of itself be a sufficient guarantee of its worth. Ill. Bro. Pike, by his learning and contributions has done as much to elevate the standard of Masonic literature and extend a knowledge of its symbolism, ethics and history as any other living man. This book, in its particular department, may justly be considered a master-piece, embracing matter not only useful to the Masonic student of every grade, but to men of science in the highest literary field of the present age. Notwithstanding this book has been preceded by several of a similar character, yet to Bro Pike alone is due the honor of first exploring this branch of Masonic literature and of opening to the admiration of the Craft its vast storehouse of knowledge and beauty. This work contains the degrees of the Ancient and Accepted Rite from the fourth to the fourteenth inclusive, is elegantly illustrated with chromo-lithographic engravings, showing all the jewels, costume, furniture, etc., belonging to each degree. No expense has been spared in getting it up, and it is without doubt, the most elegant, as well as one of the most useful books, ever offered to the Fraternity.

Published and for sale by the Masonic Publishing and Manufacturing Company, 432 Broome street, New York, and Booksellers generally in the United States.

☞ Copies of the above for the Memphis Brethren are ready for delivery at the Editorial Rooms of the APPEAL, 14 Jefferson street, upstairs. 1w jan20

BUCKEYE SALVE

—FOR THE—

CURE OF EVERY FORM

—OF—

HEMORRHOIDS OR PILES

WHETHER OF LONG STANDING OR RECENT origin, internal or external, whether attended with Prolapsus, Hemorrhage or obstruction, and all by

External Application,

No internal adjuvants being required in any case, calling to relate Physic, if constipated, or in Diarrhea and Dysentery.

The PILES, while astonishingly prevalent in their various forms amongst all classes of both sexes, are, at the same time, the most distressing, frequently dangerous, and hitherto most difficult of cure.

Persons who suffer any length of time with the Piles generally try everything they can learn of purporting to cure the disease, yet realize no permanent advantage therefrom. They have been told professionally, perhaps, there was "no permanent cure for Piles," and consequently have despaired of any future cessation from pain and suffering.

To all such a SPECIFIC is offered for their relief. The

BUCKEYE SALVE

Is a strictly scientific combination of well known remedial agents, and the proprietors have no hesitation in saying the BUCKEYE SALVE is the

ONLY INFALLIBLE SPECIFIC

Ever discovered for that disease, and which cures by outward application only, and that in time to come, as in the past, it will stand the test of trial without a failure, to perform all the proprietors claim for it, if the directions are attended to.

A large number of gentlemen throughout the country of high character and influence have voluntarily attested to its efficacy in their own cases, not from hearsay, and whose certificates may be seen by reference to the publications.

The proprietors will forward to any address one bottle, postpaid, on receipt of the retail price, $1 00 per bottle.

Our Latest Improved

NEW SCALE PIANO-FORTE.

GROVESTEEN & CO.,

499 Broadway, N. Y.,

THESE Instruments, after the most flattering testimonials from the first Pianists in the country, who, at our solicitation, have tested them in the severest manner possible, have been pronounced THE EIGHTH SQUARE PIANO-FORTE MADE IN THE WORLD.

It has always been our policy, during the *thirty-six* years that we have manufactured Pianos, *twelve thousand* of which are now in use in the United States and Europe, to give the finest instrument at the lowest cost. Our superior facilities enable us to offer them from one to three hundred dollars less than any other First Class House.

The tone of these Instruments are remarkable for their peculiar Sweetness and Great Brilliancy, never losing their quality when forced to their utmost capacity. The lower register retaining its positiveness, does not destroy the middle and upper registers by mingling with them in disagreeable confusion, the refined beauty of tone being equally delightful to the unpracticed and to the most cultivated ear.

They are an entirely new style of Piano, finished in the most superb manner, with *four full round corners front and back*, heavily carved legs and Lyre Serpentine Base richly moulded, etc. Each instrument is fully warranted for five years. sep5 dawly
